The Overall Score for the PTE Academic is based on the test taker's performance on all items in the test. The scores for Communicative Skills and Enabling Skills are based on the test taker's performance on only those items that pertain to these skills specifically. As many items contribute to more than one Communicative or Enabling Skill, the Overall Score cannot be computed directly from the Communicative Skill scores or from the Enabling Skill scores. The graph below indicates this test taker's Communicative Skills and Enabling Skills relative to his or her Overall Score.

When comparing the Overall Score and the scores for Communicative Skills and Enabling Skills, please be aware that there is some imprecision in all measurement, depending on a variety of factors. For more information on interpreting PTE Academic scores, please refer to *Interpreting the PTE Academic Score Report* which is available at www.pearsonpte.com/pteacademic/scores.

(PTE Academic) is an excellent and more efficiently designed computer based exam to test an individual's English level. I would love to recommend it to others.

Sami Khan, Australia

On check-in the test administrator will provide the candidate with a copy of the test center rules to read, request copies of ID, ask for a digital photograph and signature, and scan the test taker's palm.

The candidate will be assigned a locker to check-in their belongings before sitting the test in the secure room.

The test administrator monitors candidates throughout the test.

All in all, it took me 5 days from the moment I decided to take the exam until I got my results.

Al Faisal El Dajani, Jordan

Talking to a foreigner makes me nervous and in that condition my real speaking ability will be affected. Talking to a computer puts me at ease and I know my performance will not be influenced by anxiety.

Wang Yequi, China
